

R/Sir,

As per the instruction from Shri . P.M. Modi ,Priminister, Govt. Of India , We all people are using Electronic media as the today's world is totally digitalised then why we are lagging in case of Telephone bill. We must called for "E-Bills"

Through "E-Bills", we will save the environment and save the expenditure on Printing and paper and postal charges of telecom company and also it will save Customer time.

Its Good decision.
