Dear Sir,

TRAI has already increased TV Channels rates for us. We now have to pay through our nose for watching TV after TRAI's intervention to make tariffs supposedly consumer friendly. This decision of TRAI to telecom operators will be very expensive for telecom subscriber.

I don't understand that why should telecom rates be increased by IUC when these are going down for so long. Any cost increases for customers in the name of IUC or any other levy will not augur well for telecom subscribers.

I request you to kindly keep the interests of consumers paramount as there appears to be now reason to pay telecom companies any extra money in view of latest low cost telecom technology.

Yours sincerely.

Manoj Thakur
