Sub: Views on Review of Interconnection Usage Charge (IUC)

Dear Sir,

In response to your consultation paper on Interconnection Usage Charge policy, we would like to inform you that continuance of IUC regime is unlike to help any stakeholder. It is for sure that the consumers will be the greatest losers while the gains for old Telecom Operators will be negligible and temporary.

Any step to continue with IUC regime will lead to bring dent in TRAI's credibility and for investors this will have an adverse impact on their confidence due to the creation of an atmosphere of policy uncertainty and regulatory unpredictability.

Therefore, we request you to consider our view to continue with your decision to implement bill and keep regime from 1st January, 2010 and oblige.

Thanking you.

Yours Sincerely
