As we are registered as pdoa and from initial we are struggling for proliferation of pm wani at village of Maharashtra and then rest india.

We are Reynovo Networks Pvt Ltd. And consistently working and testing pm wani at various locations to proliferation at ground level.

Following issue faced that we expect from DoT and TRAI to order such directions to the respective authorities and respective officials.

1. As bsnl introduced Udyami and subsidy provided same for pm wani pdo. It will boom the proliferation of pm wani.

\*\*Imp is who defraud and who malpractice of pm wani scheme as everyone knows those companies.. my humble request to you kindly BLACK LIST those and then you can introduce the revised scheme.

2. PDOA financial assistance provision.

3. Order bsnl to provide affordable and special tariff plans for PDOA's pdo.

4. Imp - under the ROW we need bsnl pole, as well electricity pole so that we can expand network easily and it will be great initiative.

5. We already working at village level with ftth, isp and pm wani proliferation effectively.

Thank you.
